PRESENTATION AND ADOPTION OF THE AGENDA

10. The Agenda was presented and adopted without changes (Annex B).

6TH CAMPS CHAIRPERSON'S REPORT

11. The report outlines the activities of CAMPS, achievements, challenges and future proposed areas of focus (Annex C). During the course of the 6th CAMPS, five (5) Bureau and six (6) Service Champions meetings were held. The chair noted that in attempting to institutionalize the administration of CAMPS, the Roles and Responsibilities for Leadership and Management of the CAMPS was developed. To enhance participation and the exercise of leadership, the 6th CAMPS redefined the concept of Service Champions. As a result of this reconceptualization, the number of Service Champions increased from five (5) countries to fifteen (15) with eleven (11) active in the programme. The Chair also pointed out that the 6th CAMPS has been able to secure the participation and leadership of the Central Africa region in the Bureau through the Election of Chad, Gabon, Equatorial Guinea and the Republic of Congo have become Service Champions and co-Service Champion. After the suspension of Guinea as the 3rd Vice Chair, upon consultation, Ghana was elected to replace Guinea.

12. With regards to the substantive work of CAMPS, the following results were achieved: the Management Guides was developed; the Chairperson's Programme Implementation Plan (PIP) was adopted; the thematic areas of the six pillars of the Long Term Strategy were identified; and the Implementation Framework for Long Term Strategy (LTS) was developed. Moreover, the 2009 African Public Service Day was hosted in Tanzania and the All African Public Service Day Award launched.

13. The 6th CAMPS has been able to secure resources from UNDP through its Regional Bureau for Africa and the Government of Kenya. Moreover, some Service Champions have contributed to the Minister's Programme by hosting CAMPS events, financing activities and participating in CAMPS activities and events. Some service Champions have enhanced the technical capacity of the Bureau by providing experts.

14. The 6th CAMPS has also developed a framework for the modernization and transformation of the African Public Service (Charter). The Framework constitutes the Charter and the LTS.

15. The non-participation of the Central Africa region, lack of a permanent secretariat, low buy-in by Member States and integration of RECs were identified challenges faced by the 6th CAMPS.

16. Implementation of the Charter and the LTS was proposed as the future programmatic focus of the CAMPS. At the Continental level, the AUC should give priority to the establishment of a permanent secretariat, popularization of the Charter and facilitate Member States ratification. The AUC should coordinate effort to mobilize resource to support implementation by Member States. Member States and RECs should also encourage and facilitate signature, ratification, domestication and implementation of the Charter.

PRESENTATION OF THE EXPERTS REPORT

17. The report was presented by Amb. Emile Ognimba, Director of the Department of Political Affairs, AUC (Annex C). He noted that the aim of the experts meeting was to validate some documents for consideration and adoption the Ministerial Conference. He reported that the experts stressed that whilst implementation of the Charter is the primary and sovereign responsibility of Member States, facilitating it implementation is contingent on a consented partnership between Member States, AUC, RECs, UNDP, civil society and other relevant stakeholders based on their differentiated mandate. The experts pointed out that added value of the Charter resides in its ratification, implementation, signature remains the important first step.

18. Amongst other, the experts recommended the adoption of the following documents by the Ministerial Conference: Implementation Framework for LTS; Leadership and Management Development guide; Human Resource Planning and Policy Architecture in Public Service guide; Performance Management and Measurement including Monitoring and Evaluation guide; Rules of Procedure and Statutes of CAMPS; draft Declaration and Resolutions for the Conference of Ministers; and the speedy signature, ratification, domestication and implementation of the Charter and request the African Union Commission (AUC) and CAMPS to develop an Action Plan for its dissemination and popularisation.

Discussion

19. In endorsing the report, some Member States reiterated their commitment to participate in the CAMPS process as Service and co-Service Champions: Rwanda expressed its desire to be co-Service Champion of the themes ICT, Capacity Building and Performance Management; Republic of Congo co-Service Champion, popularization of the Charter and ICT; Equatorial Guinea, Human Resource Planning and Policy Architecture and Gabon, Africa Public Service Capacity Development.

20. Some Member States pointed out that the Charter reflects their reform agenda and promised to sign the Charter upon completion of the requisite procedure as ordained in their respective countries. Others noted that though there are areas of divergence between the Charter and their reform agenda, the Charter in its entirety could support and complement their reform efforts. It was stressed that there is need for shared responsibility for wider dissemination of the Charter. The AU website was identified as one avenue for wider dissemination of the Charter.

21. It was recommended that during the 17th AU Summit, to be held in Malabo, Equatorial Guinea, the Chair of the 7th CAMPS together with the AUC should organize a signing ceremony on the Charter. Member States were encouraged to empower their Permanent Representation to the AU to sign the Charter. There was consensus that there cannot be any substantive change to the Charter since it has been adopted by the AU Assembly. However, it was noted that there is need for improvement on translation and language harmonization especially the Portuguese version (Mozambique offered to

help). It was stressed that, focus should be on popularization, signature, ratification and implementation of the Charter.

22. The AUC promised wider and early dissemination of documents for consideration in all AU languages, and to consultation the Department of Peace and Security on latter's participation in the thematic area of post conflict reconstruction and development.

23. It was recommended that the Statute of CAMPS and Rules of Procedure should be merged without change on the content of both documents. The new document should be called Rules, Procedure and Organization of CAMPS. This document will be adopted by the next Bureau. It was noted that whilst both will institutionalise the operations of CAMPS, the process of embedding the CAMPS into the AU structure and process (as a specialize technical Committee) should not be retarded.

24. The meeting appreciated the situation in Somalia and applauded the efforts of Somalis and the Government of Somalia in addressing them. It encouraged Somalia to approach the AUC to explore possibilities of support to rebuild and reform its public service within the framework of the AU's current engagement with the country.
