- c) The importance of organising trade fairs with a view to promote trade and investment flows and opportunities among African countries.

7. In the discussions that ensued, the following issues were raised by Member States:

- i) It was recalled that the Ministers prescribed that work on Rules of Origin should be limited to the collection of data but the report states that the Commission is planning to hold a workshop on Rules of Origin. So clarification was sought whether that workshop was maintained.
- ii) Since this was the first time a Joint Conference was organised in the context of the 2012 Summit theme on boosting Intra African trade, the Commission should improve the organisation of similar future events drawing experience from lessons learnt during the Joint Conference.

8. In response, the Commission highlighted that the work that is being done on Rules of Origin will be limited to data collection and will not prejudice the outcomes of the negotiations on Rules of Origin during the CFTA negotiations. The Commission also noted that an internal review of the Joint Conference of Ministers of Agriculture and Ministers of Trade has already been carried out and lessons learnt will be used to improve the technical, organisational and logistical aspects of future conferences.

9. The Director of Regional Integration, Infrastructure and Trade of UNECA informed the meeting that the 6th Edition of Assessing Regional Integration in Africa,

To take the work forward, the Commission will elaborate an implementation strategy for the Action Plan on Boosting Intra African Trade as well as develop modalities for the CFTA negotiations taking into account the Draft Strategic Framework.

11. In the discussions that followed, the following issues were raised:

- i) The need for the Commission to comply with the Assembly Decision stipulating that most meetings of the Specialised Technical Committees including the one on Trade, Industry and Minerals should be organised after every two years;
- ii) The need for RECS and Member states to put in place frameworks , where these do not exist , at national and regional level for the implementation of the Summit decision; the Sub-committee on administrative and budgetary matters will deploy efforts to ensure the necessary support;.

The Director of the Department of Economic Affairs presented the outcome of the Fifth African Private Sector Forum jointly organised with the United Nations Economic Commission for Africa (UNECA) in Abidjan, Côte d'Ivoire from 05 to 08 November 2012 under the theme "The Role of Private Sector in the Promotion of Agro-Industry in Africa". He briefed the Sub-Committee on a number of issues that were discussed at the Forum and on which specific decisions were taken as well as concrete recommendations to be implemented by various stakeholders.

16. Among relevant recommendations, he pointed out the following:

- a) The African Union should take the initiative of advocating for the establishment of additional Commodity Exchanges across the African Continent;
- b) The AUC should support regional value chain projects in the agricultural sectors through domestic resource mobilization;
- c) The private sector needs greater visibility and involvement in policy dialogue and public-private partnerships including south-south cooperation;
- d) The AUC should coordinate the development of database of African private sector actors in different sectors and regions;
- e) AUC should use CAADP to coordinate and find synergies, harmonize different plans as well as replicating success stories to increase collaboration and reduce fragmentation.

Agenda Item VI: Brief on Post-MDGs 2015

20. The Director for Economic Affairs made a brief presentation on the consultation process on the post 2015 development agenda. He noted that Africa had not been much involved in the formulation of the current MDGs and this has contributed to the lack of ownership by African countries which should not be the case for the formulation of the post 2015 development agenda. He reminded the meeting that the July 2012 Summit requested the Commission in collaboration with Member States, RECs and partners to conduct wider consultations with all stakeholders. So far three consultation meetings have been organised and the Commission is also using the opportunity of different meetings (Private sector forum and the Committee of Directors General of National Statistics Offices) to consult the different stake holders. He informed the meeting that the continental consultation will be held in Tunis in March, 2013 and the African Common position will be presented at the Conference of Ministers of finance and planning and subsequently to the May 2013 Summit for consideration and adoption by the Heads of State and Government before it is submitted to the UN General Assembly in September 2013.
