The Meeting then endorsed the Report of the Extraordinary Session with the following exception on the WTO Agreement on Trade Facilitation:

Agenda Item 5: Update on the Tripartite Free Trade Area Negotiations

11. During this session, H.E Sindiso Ngwenya, Secretary General of COMESA updated the meeting on the progress on the Tripartite Free Trade Area Negotiations on behalf of the Chair of the Tripartite Task Force. He gave a brief background on the origin of the Tripartite as well as an update on the status of implementation of the three pillars of market integration, industrial and infrastructure development respectively. With regard to market integration, agreement was reached on most issues with the exception of trade remedies, rules of origin and tariff liberalisation among others. He cautioned that in negotiating the CFTA, lessons should be drawn from the Tripartite experience, particularly on trade liberalisation. On free movement of businesspersons, there is scope for the Tripartite to learn from the experience of ECOWAS. He informed the meeting that the Tripartite Chief Executives will be conducting consultations with Heads of State with a view to expediting the conclusion of the first phase of the TFTA negotiations in 2014.

12. On the industrial development pillar, he emphasized the role of governments in creating an enabling environment for the private sector to invest. He then noted the sharp increase in trade in manufactures in the region supported by regional financial institutions.

13. On infrastructure, he indicated that tripartite projects are being implemented and that a Pre-Project Investment Unit (PPIU) has been set up sponsored by the three RECS, AfDB and UNECA. The Secretary General emphasized the importance of providing financial resources for the implementation of regional integration initiatives.

14. The Secretary General envisaged extending the Tripartite to ECCAS and ECOWAS based on already liberalized trade. He concluded by highlighting the possibility of RECs providing technical support to the AUC in the development of the CFTA and added that the conclusion of the tripartite negotiations will lay a basis for the establishment of the continental free trade area.

Agenda Item 6: Reflections on the preparations for the establishment of the Continental Free Trade Area

15. During this session, the Commissioner for Trade and Industry recalled the adopted road map and milestones towards the establishment of the CFTA namely the establishment of the Tripartite by 2014, the establishment of a 2nd bloc which is however not mandatory for CFTA negotiations, the CFTA negotiations and finally the establishment of the CFTA.

16. Member states should take ownership of the CFTA negotiations by providing the necessary financial and technical resources. Where third parties are involved in funding the activities, efforts should be made to diversify partners.
