#### ANNUAL MISSIONS

#### 6. Annual Missions on Refugee Problems and Programmes in Africa

This budget relates to missions the OAU/BR-intends to undertake in the course of 1984/85 fiscal year. The missions are for on-the-spot consultations with the competent national authorities regarding problems of, and programmes for, refugees as recommended by the then OAU Commission of Ten to the Twenty-Seventh Ordinary Session of the Council of Ministers following the recommendation of the Seventh Session of the Co-ordinating Committee. Consequently, the Council of Ministers adopted Resolution CM/Res.486(XXVII) dealing basically with matters relating to education, placement, legal protection of refugees, the principle of burden-sharing, the taking of country-by country census of refugees and the voluntary repatriation of refugees. Resolution CM/Res.536(XXVIII) also calls for on-thespot contacts with Member States in working out measures to relieve the plight of refugees. Furthermore, the OAU/BR derives its mandate to undertake these missions from resolution ~ CM/Res.829(XXXVI) passed by the Thirty-Sixth Ordinary Session of the OAU Council of Ministers. Paragraph 7 of this resolution requests the OAU Secretariat to closely follow up the pledges

and commitments made by OAU Member States during the missions of the Commission of Fifteen on Refugees in Africa in an effort to promote the principle of "burden-sharing". The missions will also make a follow up on the implementation of the recommendations of the 1979 Arusha Pan African Conference on Refugees and the 1983 meeting of the OAU Secretariat and Voluntary Agencies involved in assisting refugees in Africa.

The slection of countries to be visited had also to be based on paragraph 8 of the afore-mentioned resolution, which stipulates that priority should be given to those Member States which although directly affected by the refugee problem were not visited by the Commission of Fifteen.

In this regard, the list of countries earmarked for the missions includes:-

Central Region : Angola, Burundi, Cameroon, Congo,
Gabon, Rwanda and Zaire

Eastern Region : Djibouti, Ethiopia, Kenya, Somalia, Sudan, Tanzania and Uganda

Southern Region : Botswana, Lesotho, Mozambique, Swaziland, Zambia and Zimbabwe

<u>Western Region</u>: Togo, Nigeria, Liberia, Ghana,

Sierra Leone and Senegal

Northern Region : Algeria and Morocco

In addition, the CAU mission will appeal to the Governments of these Member States to reasses the population of refugees in their respective countries. This is mainly because at the Thirty-Sixth

Ordinary Session of the OAU Council of Ministers, several delegates expressed some misgivings concerning the estimated figures of refugees which are nearly two years old and thus do not reflect the dynamic refugee situation in Africa. The Council, therefore, instructed the OAU Secretariat to up-date, on a regular basis, the statistics on refugees in the Member States. The details of the budget of the Annual Missions by OAU/BR staff are contained in the Annex.

#### C. EMERGENCY SITUATIONS

#### 7. New Refugeé situation plus other types of Emergencies

From time to time new refugee situations emerge in various parts of Africa and dictate the OAU/BR staff to report on the scene immediately and make an assessment of the problems and needs of the refugees. In conformity with the Arusha Refugee Conference Recommendations, the OAU/BR annual budget should have a component to cater for such refugee emergencies.

#### PROJECT PROPOSAL ON EDUCATION AND TRAINING OF AFRICAN REFUGEES

#### A. Basic Information

(i) Region affected : Africa

(ii) Project Title. : Education and Training of African

Refugees

(iii) Number of Recipients: 60 Students

(iv) Duration of Projects: One year (1984/85), with

possibility of extension

(v) Implementing Agency: OAU Bureau for Refugees

#### B. Aims and Objectives of Projects

- (i) To enable OAU/BR award scholarships to African Refugees so that they may obtain the required education and training that would make them self-reliant;
- (ii) To assist refugees to obtain scholarships from scholarship awarding agencies; and
- (iii) To assist refugees obtain admission into educational institutions for further studies and training.

#### C. Project Implementation

The ever growing population of refugees in Africa now estimated at 5 million has brought about an increasing number of young men and women yearning for futher education and training. As a result, the OAU/BR would like to intensify its efforts not only in awarding scholarships, important as this is, but also helping refugees

find admission at educational and training institutions within the OAU Member States and, where possible, outside Africa. Refugees are increasingly finding it difficult, even if they may posses the best of qualifications, to find admission in colleges and universities in Africa. This situation arises because most of the educational institutions on the continent can only admit a small number of students every year due to inadequacy of room-and necessary facilities to admit more students. Therefore, the available room is given first to nationals. However, the Bureau for Refugees has been encouraged by the promise made by the Member States of the OAU visited by the recent missions of the OAU Commission of Fifteen on Refugees in Africa to extend educational opportunities to refugees in regard to admission and award of scholarships. A STATE OF THE STA

During the academic year 1984/85, the OAU/BR hopes to sponsor a total of sixty (60) refugee students for vocational and university studies. Out of this number thirty (30) will be ongoing cases. There are no ready funds for these students. Therefore, we appeal to members of the Co-ordinating Committee to generously contribute to the project.

Funds contributed to the project will cover tuition, board and lodging, books and stationery, student allowances, etc. The following is the proposed budget for the academic year 1984/85.

#### B. Objectives and Project

- (i) The short-term objective of the Project is to inform the African public and the international community of the basic problems refugees face and the issues involved.
- (ii) The long-term objective is to make the African public aware of the root causes of the refugee problem on the continent with a view to involving the públic in finding concrete solutions to the problem.
- (iii) In addition, the project will aim at making the refugees themselves aware of their rights and obligations.

#### C. Project Implementation

In the middle of 1980, the OAU Secretary-General as part of his efforts to revitalize the Bureau for Refugees (BR) set upan Information Unit within the Bureau. This move was prompted by the

desire to provide adequate information to the OAU Member States and the general public on the African refugee problem.

In order to achieve the above objectives the BR uses and will continue to use e several aids such as: booklets, brochures, pamphlets, posters, wall calendars, and slides. The aids will depict the plight faced by refugees and attemtps to solve their problems as well as to provide information that will help to make the general public and the international community aware of the gravity, and the causes of the refugee problem on the Africa continent. The BR will be responsible for the production and distribution of such aids to the OAU Member States, Refugee Serving Organizations, Educational Institutions, Information and News Media and whenever possible to the general public etc. order to achieve a wide distribution it is intended, besides mailing the materials directly by the General Secretariat of the OAU to the various OAU Member States and Organizations, to distribute some through the OAU Regional Offices and the Embassies accredited to Addis Ababa. The cost of distribution will be borne by the OAU General Secretariat. The following, therefore, is the budget for the production and translation of the publications, purchase of equipment for the mass-media expert and commemoration of Africa Refugee Day.
