**EXECUTIVE COUNCIL**  
**Fourteenth Ordinary Session**  
**26 – 30 January 2009**  
**Addis Ababa, ETHIOPIA**

EX.CL/489 (XIV)

**REPORT OF THE AFRICAN COURT ON HUMAN AND**  
**PEOPLES' RIGHTS TO THE BUDGET**  
**FOR YEAR 2009**

**Report of the African Court on Human and Peoples'**  
**Rights to the Budget for year 2009**

**1) Basic Salary:**

The approved structure for the Court has forty six regular staff and the President whose terms and conditions of service is the same as regular staff members. The basic salary is based on the current salary scales of the African union and it is assumed that those recruited in year 2008 will have their salaries increased in year 2009 to step 2 of their respective salary scales. Therefore the increase of 30% over last year represents increment to 39 members of staff minus the President as his salary does not increase. The salary structure used does not take into account the current proposals of increasing the salaries of the African Union.

**2) Post Adjustment Allowance**

Post adjustment is 40% of basic salary to internationally recruited staff as per EXC.CL/331(XI).

**3) Temporary assistance**

The structure of the Court is almost one employee per post. The Temporary assistance is budgeted for recruitment of temporary staff to assist the Court especially those posts that are basically one employee and yet need two or more. Currently the structure of the Court is one Cleaner, one Receptionist, two drivers against five (5) vehicles as approved in the budget

The Court will therefore need extra personnel in the following fields namely Cleaners at least a minimum of four because the Court premises is quite large and no single Cleaner can clean the offices alone. There is only one receptionist, and if this person falls sick or has to go on leave, the Court will be required to recruit a receptionist. At least one more temporary receptionist is needed whilst the Court submits its revised structure to the relevant authorities.

The plot on which the Court is situated is quite a big area of which one cleaner will not able to clean the offices as well as the surrounding areas. In this context, the Court will have to source the service of tending the gardens of the Court or hire more Cleaners on temporary basis.

Though the donors such as the GTZ may fund recruitment of extra legal experts, the Court while waiting for donors to assist may need to recruit the legal experts once it becomes operational because the volume of work will not be met by the four (4) legal experts of the current structure of the Court.

**4) Overtime**

Overtime is unavoidable during sessions and meetings for support staff like drivers, documentalist and other GS staff. Security personnel will be required to work overtime since their services are required even during weekends. The figure is based on 25% of a third of the basic salary of all GSB staff who are twelve (12) in total.

**5) Judges Allowances & Consultant Emoluments**

This is based on the approved allowances for the ten (10) judges (including the Vice President). This will also cover the acting allowance for the Vice President and any Judge appointed to act as President.

It is also anticipated that the court will require the services of consultants especially during the first year of full fledged operations. Areas that might need specialist help include setting up the library, publicity, communication strategy, ITC requirements and additional Legal Experts, etc.

**6) Initial Recruitment**

The recruitment exercise for all posts except five (5) were completed in year 2008. Unfortunately it was not possible to find suitable candidates among those who applied for posts of Translators English and French. Therefore, these two posts were re-advertised making a total of 7 vacant posts to be filled in year 2009.

The provision made in the budget of year 2009 is in regard to the recruitment of the seven (7) remaining posts namely Deputy Registrar, Arabic and Portuguese Interpreters and two Secretaries for Arabic and Portuguese and the re-advertised posts of Translators for English and French. Therefore the provision includes all costs associated with recruitment such as air tickets and per diem for those attending interviews and travel costs for those who will be recruited including transportation of personal effects. It also covers costs related to Consultants to conduct recruitment process.

According to the Sharm El-Sheikh decision contained in document EX.CL/Dec.449 (XII), the Court will submit a new structure of the Registry in 2009. The budget submitted for 2009 does not take into account the new structure.

**7) Travel on Home Leave**

Only the Private Secretary to the President and her family will be entitled to home leave in the year 2009 as she was recruited in September 2007. Therefore the figure for the last year budget is maintained.

**8) Installation Allowance**

The provision only caters for the remaining seven (57 posts that will be filled early 2009. A total of seven (7) plus twenty eight (28) dependants assuming each staff come with three children and a spouse.

**9) Dependency allowance**

Dependency allowance is 5% of basic salary per annum for spouse and US\$250 per child per annum. We have budgeted for an average of three (3) children for each member of staff.

**10) Housing allowance**

Housing allowance is as follows:

❖ International GSA:	\$11,040.00 per annum
❖ P1 to P3:	\$14,352.00 per annum
❖ P4-D1:	\$17,664.00 per annum

Though we are guided by document EX.CL/331(XI), the calculation is based on AU Nairobi Office as this is nearer to Arusha than Addis Ababa, as it is line with adopting the nearest duty station policy in a place where rates could not be determined and in this case Nairobi AU Office in nearer than AU Commission in Addis Ababa. The President and the Registrar are not covered since they are entitled to free accommodation by the host country.

**11) Pension contribution**

Pension contribution is at the rate of 15% of basic salary.

**12) Group Life Insurance**

This covers all staff members.

**13) Medical Scheme**

This is to cover eighty percent (80%) of staff members' medical costs as per Staff Rules and Regulations. The amount also covers medical evacuations and cost of medication.

**14) Travel Insurance**

This is to cover for all staff and judges during official missions. Travel insurance is not paid annually but whenever a staff takes an official mission, he/she should be covered.

**15) Training Costs**

We are expecting training cost to be a significant portion of our budget considering that all members of staff will be new recruits. To be effective, the Court will have to invest in training the personnel for the maximum benefit of their services.

**16) Separation Costs**

The provision takes into account the fact that almost all members of staff will be new. Some of these staff members may decide not to continue in the services of the Court and some of them may not be confirmed after the probation period (International Staff Only) and they will have to be paid in order to go back home or for those who may resign from the services of the Court before the end of the year. The provision also includes repatriation in case of death.

**17) Staff Welfare**

This is meant to cover costs related to staff welfare provisions such as mineral water and teas. It is a fact that these days all Organizations are providing mineral water for drinking for staff in the offices for safety reasons.

**18) Education Allowance**

The budget is based on the current allowances, \$6,500.00 per child for international staff and \$2,100.00 for local staff. We have budgeted for 3 children per member of staff.

**19) Acting allowance**

This will be unavoidable especially during the first half of the year as recruitment is expected to be finalized later. Those who assume duties earlier might be required to act especially for critical functions.

**20) Official Missions**

This is to cover all official missions for staff and members of the Court.

**21) Hospitality**

This is necessary for an institution that is being established for networking purpose

**22) Maintenance Costs (Vehicles, office equipment and premises)**

The maintenance of vehicles is expected to rise since the cars will be two years old. As regards the equipment, the durability of these equipments cannot be

guaranteed therefore the expected life cannot be determined. It is in this regard that the Court expects that maintenance costs on equipment will rise.

On the other hand, the Court's proposed premises are relatively big, meaning that maintenance costs will be high. The provision includes the partitioning of the new premises to accommodate the staff. It also caters for maintenance of the residence of the President and the Registrar

**23) Utilities (Water and Electricity)**

We have maintained the allocation for year 2008 because the Court only started paying for these utilities in the second half of year 2008. The Court is yet to move to new premises and it is very difficult to estimate what will be the water and electricity consumption at the new premises. Based on that assumption, maintaining the same allocation as for year 2008 will be better until the Court is able to experience the consumption of water and electricity so that the budget for 2010 will be based on actual consumption of year 2009.

**24) Insurance of property**

This covers premises, office equipment as well as vehicles (0.18% of estimated value for premises and Office equipment and 5% of estimated value for Vehicles).

**25) Fuel and Lubricants**

This provision is for four office vehicles bought from the year 2007 allocation. The Court is yet to purchase one more vehicle from year 2008 allocation though it is limited by lack of drivers.

**26) Communication (Telephone, Fax, Postage, Freight, Internet)**

Rates based on average cost of organizations of similar nature in Arusha (adjusted to take into account the number of employees). The allocation for code 504 Freight has been increased from US\$5,000 to US\$50,000 because mail delivery by courier is faster and safer than by normal postal systems especially considering that the Court as a judicial body needs a guaranteed safety and confidentiality of mail dispatched.

On average, a letter to Addis Ababa costs between US\$50 to US\$65 and to Nairobi costs US\$ 45.00, therefore, the further the place the more costly it becomes. The amount of correspondence the Court will have in relation to its operations will be heavy and in most cases urgent. This is why courier is preferred to normal mail posting.

**27) Stationery and Office supplies**

The provision is based on the fact that the Court will not have significant stocks at the end of the year. It is also expected that with the recruitment of the Court Registry Staff, this code will be used and therefore the allocation for 2008 is repeated in 2009.

**28) Bank Charges (Including Loss/Gain on exchange)**

Exchange loss is expected to be quite significant considering the current volatility of the US dollar. The exchange losses arise as a result of the difference between the UN Rate of exchange that is determined monthly and used by the all Organs of the African Union and the daily, if not hourly rate, of exchange used by banks. The losses will mainly arise from transfer of funds from the dollar account to the local currency account.

Further more the Court pays commission and bank charges whenever money is remitted outside the seat of the Court. The same code covers ledger fees charged by bank monthly.

**29) Printing of Documents**

This covers all printing requirements of the Court such as letterheads, accounting forms among others. The full operation of the Court is expected to begin end of the fourth quarter of the current year. So many documents will need to be printed which were not printed in the current year since most staff were not at post.

The same code will be used to print the New Rules of Procedure of the Court that has to be printed and distributed to all member states and interested parties. The Protocol of the Court too needs to be printed for distribution to member states and interested partners. Further more the Court will have to print its judgements and activity reports

**30) Library Books and Services**

The Court will establish a Library this year after the recruitment of a Librarian. The provision is for the start up phase only since we are expecting the cost of fully equipping the Library to be far much higher. This is based on the titles required and the number of copies. The same budget for year 2008 is maintained as the Court was not able to utilize fully the allocation of year 2008 due to lack of personnel.

**31) Newspapers and Periodicals**

This amount is for the daily and weekly newspapers and periodicals relevant to the Court such as Africa Confidential, New Africa and legal journals around Africa.

**32) Publicity**

This is very essential for a new organ such as the African Court on Human and Peoples' Rights to make itself known within the host country and Africa as a whole. The Court needs to publish a lot of material and bind them into books and newsletters for distribution to member states and to donors funding some of the projects of the Court.

**33) Translation Fees**

This is for translation work, by freelance, not related to any particular meeting which might be required by the Court from time to time.

**34) Improvement of Premises**

The Court is asking for an amount of US\$200,000 under this vote. This is intended to cater for the need to demarcate, partition and purchase of floor carpets for the offices. It also caters for any other improvements to Court that may be deemed necessary but not under the obligation of the host country.

**35) Furniture and Fittings, Telecommunication equipment, Press and information equipment**

The Court's Offices are to be furnished by the Government of Tanzania. However, a need could arise during the course of the year to acquire furniture which is not covered by the host agreement. As regards telecommunication equipments, the Court if allocated the funds intend to purchase video cameras and ordinary cameras to help in the publicity of the Court.

**36) Vehicles**

The Court will have sufficient vehicles and there is no need for purchase of vehicles. The Court also is limited by the number of drivers because the approved number in the current structure is only two drivers.

**37) Meeting and seminars**

This is to cover four ordinary sessions and two extraordinary sessions (15 days per session) and associated costs as per attached calculations. There is also one inauguration ceremony. This also includes other meetings such as committee meetings and other official seminars.

**38) Legal aid**

Establishment of the Court provides for legal representation where the interests of justice so require (Article 10.2). This is meant to assist those bringing cases

who do not have the means to finance themselves. The allocation has been raised from the budget of 2008 from US\$100,000 to US\$200,000 because costs of defending cases are quite high and the Court is expected to be fully operational beginning year 2009.

**39) Audit Expenses**

This is for expenditure related to external audits. The same figure for year 2008 has been maintained.
