5. Meeting of the PRC Sub-Committee of the whole on 13 June 2014 to assess its progress since the adoption of its programme of work in March 2014 and deliberate on the way forward.

Participation in the Activities of the Commission

6. In February 2014, in line with Kampala Plan of Action and the strategic priority of the Department of Political Affairs working towards durable solutions to displacement, the African Union Commission, in partnership with the Norwegian Refugee Council, organized a High-Level Roundtable on Durable Solutions for Somali Refugees in Kenya based on the tripartite agreement between the Kenya Government, Somali Government and UNHCR. The roundtable was attended by representatives of the Government of Kenya, the Commissioner for Political Affairs, the Chair of the PRC Sub-Committee on Refugees, Returnees, and Displaced Persons, the Inter-governmental Authority for Development (IGAD), the African Development Bank, and key humanitarian actors

involved in the design and implementation of durable solutions for displaced populations. Discussions at the roundtable laid emphasis on three broad themes: conditions for return of refugees; structural support for sustainable returns; and innovative practices for durable solutions. The High Level Roundtable proposed a need for similar meeting in search of durable solutions especially for other protracted caseloads such as DRC, CAR and South Sudan, taking into consideration the specificity of their situations.

7. During this mission, the Chair of the PRC Sub-Committee accompanied the Commissioner for Political Affairs to officiate the opening ceremony of the AU hospital in Dadaab refugee camp in Northern Kenya. During the 2011 AU pledging conference on the Horn of Africa Region, the Kenya National Red Cross was given USD One Million to deal with the drought and they constructed a hospital for the local community in the Dadaab region. The PRC Sub-Committee approved its contribution of Usd 100,000 to equip the hospital as it also caters for refugees within the region. It was noted that the Kenya Red Cross had achieved a lot with minimal resources an example of what the AU token assistance can be used to achieve in the future especially if the targets are to be project related.

8. In March 2014, the Commission, in partnership with International Federation of Red Cross and Red Crescent (IFRC) and United Nations Office for the Coordination of Humanitarian Affairs (UN-OCHA), organized a Disaster Response Dialogue for National Disaster Management Agencies to raise awareness on global and regional coordination systems for disaster response, disaster management law, and issues of accountability and quality with regard to disaster response. This served as a forum for disaster affected countries, , humanitarian partners, and regional institutions to identify current gaps in disaster response and programs of action to raise national and local capacities as well as enhance coordination. The Chair of the PRC Sub-Committee participated in this Dialogue.

Missions of the PRC Sub-Committee on Refugees, Returnees and Internally Displaced Persons

9. Various humanitarian assessment missions were undertaken by members of the PRC Sub-Committee in the said period with the support of from the Division of Humanitarian Affairs, Department of Political Affairs. These missions fall under the decision of the PRC Sub-committee on Refugees, Returnees and Internally Displaced Persons which requested the Commission to initiate a series of activities for 2014 including among other things, field missions to AU member states that are most affected by the problem of displacement and other humanitarian challenges. Humanitarian assessment missions were carried out in the following Member States:

- Democratic Republic of Congo;
- Republic of the Seychelles;
- Republic of Chad;
- Republic of Burundi.

a) Mission to the Democratic Republic of Congo

10. The mission of the PRC Sub-Committee visited the Democratic Republic of Congo from the 3rd to the 10th of February 2014. The mission was led by His Excellency, Mr. Manuel Gonçalves, Ambassador of the Republic of Mozambique in Ethiopia and to the African Union, and Chair of the PRC Sub-Committee on Refugees, Returnees and Internally Displaced Persons.

12. The Mugunga III camps consist of persons internally displaced due to attacks in early 2013 of the M23 Movement and other armed forces from Massissi. Despite the victory of the Armed Forces of the Republic of Congo (FARDC) backed by the forces of the United Nations Mission for Stabilization in the Democratic Republic of Congo (MONUSCO) over the main armed group, the M23 in November 2013, civilians in the camps still refuse to return to their homes for fear of further attacks.

In response to the humanitarian emergency in the Democratic Republic of Congo, the African Union has made a symbolic donation of two hundred thousand dollars (\$ 200,000 USD) to the country through the UNHCR as a contribution to the work of welcoming the displaced and the management of the displaced persons sites.

This storm was accompanied by heavy rainfall which caused severe flooding in three districts, namely: Anse aux Pins, In Cap, and Point Larue that had all been declared disaster areas. Two other districts Cascade and Digue Island were also significantly affected.

17. In solidarity with the Government and people of Seychelles, the African Union donated a symbolic sum of one hundred thousand U.S. dollars (U.S. \$ 100,000) as a contribution to the efforts of the Government.

19. Approximately 150,000 people, comprised of both Chadian returnees and refugees, have entered Chadian territory due to the crisis in Central African Republic and are currently accommodated in transit sites and host communities. The mission of the African Union visited one of the camps of returnees. The Zafaye camp is 15 kilometers from the capital, N'Djamena, and hosts approximately 2,000 Chadian returnees from the Central African Republic. In solidarity with the Government and the people of Chad, the African Union made a symbolic donation of one hundred thousand dollars (\$ 100,000 USD) to the local Office of the International Organization of Migration (IOM) to support their work of movement, profiling and settlement of displaced populations from CAR into Chad.

22. Two experts specialized in the management of natural disasters from the Nigerian National Emergency Management Agency (NEMA) and the Mozambican National Institute for Disaster Management (INGC) respectively were involved in the mission in order to exchange experiences with the Burundian authorities in charge of managing disasters and to jointly find solutions for enhancing future humanitarian preparedness and response.

23. Torrential rains of February 9th, 2014 caused flooding that affected more than 220,000 people and caused the death of about 107 people in the capital city of Bujumbura.
