PROCEEDINGS

Agenda Item 1: Opening of the Meeting.

Remarks by United Nations Economic Commission for Africa (UNECA)

4. In his remarks, Dr Abdalla Hamdok, Deputy Executive Secretary and Chief Economist for the United Nations Economic Commission for Africa (UNECA), pointed to the forthcoming signing of the Tripartite Free Trade Area Agreement and the launch of the negotiations for the Continental Free Trade Area as the two landmark events in the regional integration agenda of the African continent in 2015. He emphasized that the consolidation of Africa's integration efforts will enable the continent to be in a better position in relation to the Sustainable Development Goals and to weather the slowing down of the global growth, the uncertainty surrounding the post-Bali work program at the WTO, the emergence of mega-regional trade agreements, as well as the Economic Partnership Agreements.

5. Recalling the research done by the UNECA, he highlighted the various benefits that would accrue to the African continent by finalizing and implementing the CFTA that covers both trade in goods and trade in services. He also pointed out that the CFTA will assist Africa's structural transformation as it is expected to enhance industrialization and pave the way for Africa's effective integration into the global value chains. He concluded by re-emphasizing the readiness of UNECA to provide technical support to the processes of the WTO Ministerial, AGOA as well as the CFTA negotiations and the implementation of the Boosting Intra African Trade initiatives.

Remarks by the AU Commission

6. H.E. Mrs. Fatima Haram Acyl, Commissioner for Trade and Industry, welcomed the Ministers to the dedicated session and recalled the objectives of the meeting as well as the efforts deployed towards the launch of the negotiations. She highlighted the commitment and confidence of African leaders in the benefits of the CFTA for the continent. She acknowledged the challenges awaiting the negotiators given the various levels of development of African countries and in this regard, called on the meeting to bear in mind that there is no alternative but to go forward. In this regard, she urged Member States to show flexibility and compromise for the common goal.

7. The Commissioner reported on resource mobilisation effected by the Commission for the CFTA process amounting to approximately US \$ 18 million for the period 2016-2017 and thanked the partners in this regard. She however called on Member States to also make budgetary provision so that the CFTA becomes an African owned and led initiative. She stated that the emergence of mega regional trade agreements in the world should be an additional reason for Africa to brace itself within a CFTA in order to be in a better position to defend itself economically.

8. The Commissioner briefed the Ministers on the wide advocacy exercise carried out in Washington on AGOA and on the expected outcome. In this regard, she called on Ministers to discuss and have a common understanding of the implications of the new Bill. She also urged the Ministers to seize the opportunity of the Tenth WTO Ministerial holding on African soil to ensure that Africa's interests are safeguarded. In conclusion, she invited Ministers to finalise the documents that will allow a smooth launch of the CFTA negotiations and wished the meeting fruitful deliberations.

Opening Statement by the Chair (Sudan)

9. H.E. Mr. Osman Omer El Sharif, Minister of Trade of Sudan, welcomed the Ministers to this dedicated session of AU Ministers of Trade to discuss modalities for the establishment of a Continental Free Trade Area (CFTA) which represents the hopes and future of Africa. He added that it was time for African peoples to benefit from one another's resources and connect freely in a common space.

10. He recalled that the idea of establishing an entity with the objective of unifying the continent economically is not new and has always been in the mind-set of the African leaders since the establishment of the OAU, the Lagos Plan of Action as well as other decisions taken by the African Heads of State and Government. He appreciated the decision of the AU Summit held in January 2012 that called for fast tracking the establishment of the CFTA. He commended the work of the Experts and Senior Officials during the past six days in considering documents towards reaching a semi-consensus that will greatly facilitate the process of the establishment of the Continental Free Trade Area.

11. He then exhorted the Ministers of Trade to take the appropriate decisions for Africa and its peoples. He then called for a minute of silence for lives lost in the past period in the Mediterranean and in various terrorist attacks perpetuated by the terrorist group of ISIS. Objectives

5. Within the broader framework of the Abuja Treaty Establishing the African Economic Community, the objective of launching negotiations for the CFTA is to achieve a comprehensive and mutually beneficial trade agreement among the Member States of the African Union. The Objectives of the CFTA are as follows;

- i) Enhance competitiveness at all levels and more specifically at the industry and enterprise level through exploiting opportunities for scale economies, reducing business costs, continental/global market access and better reallocation of resources including through the development of trade-related infrastructure;

- ii) To overcome dependence on exportation of primary products and promote social and economic transformation for inclusive growth, industrialization and sustainable development in line with Agenda 2063;
- iii) Realize the potential to expand and accelerate the growing diversification and dynamism of intra-African trade including the aim to increase by 50 % trade among African countries by 2022 through better harmonization, coordination and implementation of trade liberalization and facilitation regimes and instruments across RECs and across Africa in general; and
- iv) In the context of boosting intra-Africa trade and realizing the transformational potential of increased trade among African countries, to create a freer market for goods and services, building upon the trade agreements within the regional economic communities and associated commitments and thus pave the way for accelerating the establishment of the Continental Customs Union;
- v) Resolve the challenges of multiple and overlapping memberships and expedite the regional and continental integration processes;

6. These objectives are to be met through negotiations of the CFTA and accelerated efforts on industrial development to promote the development of regional value chains. Industrial development is pursued through, among others, the Action Plan for Accelerated Industrial Development for Africa (AIDA), the Action Plan for Boosting Intra-African Trade (BIAT), the Program for Infrastructure Development in Africa (PIDA) and the CAMI Work plan, which address the supply side constraints to ensure that market integration, is beneficial to all countries.

Industrialisation and Infrastructure Pillars

7. CFTA negotiations shall be pursued in the context of a developmental integration strategy. In this regard, CFTA negotiations shall take into account policies aimed at developing the productive capacity and industrial integration among industries of the regions. **Indicative Roadmap for the Negotiation and Establishment of
the Continental Free Trade Area (CFTA)**

Indicative Roadmap for the Negotiation and Establishment of the Continental Free Trade Area (CFTA)

A. Background

1. The 9th Ordinary Session of the AU Conference of Ministers of Trade requested the AU Commission to prepare a Road Map towards the launch of the CFTA Negotiations with specific details on planned studies and schedule of meetings, highlighting the resource requirements and the capacity needs of the AUC, RECs and Member States. This paper represents an initial framework for that Roadmap for the Negotiations;
2. The Roadmap is informed by
 - a) RECs and Tripartite acquits;
 - b) Capacity in Member States and RECs;
 - c) Mobilised Resources and preparatory work required.

B. Preparations for the launch of the CFTA negotiations

3. CAMOT 9 emphasised the importance of technical studies in the preparation for the launch of the negotiations. In response to the request of the Ministers, the Commission, working in collaboration with the United Nations Economic Commission for Africa (UNECA), United Nations Trade and Development Conference (UNCTAD), Trade Law Centre (Tralac) and the Trade Advocacy Fund (TAF) commissioned a number of technical studies. These studies together with a number of essential technical documents will enable the Assembly to launch the CFTA negotiations in June 2015 as scheduled. The Institutional Arrangements for the CFTA negotiation were agreed upon during CAMOT 9 in December 2014.

C. Draft Texts and Papers

4. The Commission shall prepare papers as requested by the CFTNF and propose draft texts as inputs into the negotiations.
5. AUC will coordinate and provide technical support required during the Negotiating Sessions on each Topic. Technical Papers and Draft Text will be finalized, translated, and circulated to member states according to the agreed schedule and Rules of Procedure. Given this context, AUC DTI will coordinate activities, informed by the approaches of the RECs best practices, WTO and the Tripartite to trade negotiations, in the run-up to the CFTA Negotiations.

D. Financial Resources for the CFTA Negotiations

6. The Commission was directed by CAMOT 9 to develop a resource mobilization strategy to ensure sustainable resource availability for the process and a matrix indicating clearly the list of different areas to be covered, the studies to be undertaken as well as human and financial resources requirements to carry out the work. In line with this

mandate, while awaiting the preparation of a Resource mobilization strategy, the Commission has undertaken the following;

- i) Secured funding for part of the staff of the CFTA Unit and short term experts as the need arises for the period 2016-2017.
- ii) Funds for all foreseen studies to be undertaken in preparation and during negotiations.
- iii) Mobilized resources (for the period 2016-2017) organizing the meetings outlined in the schedule including translation, interpretation, meeting venues, etc.

7. All the resources that have been mobilized so far are from Partners. Member States are yet to commit to funding the CFTA negotiations. Members will be expected to fund their participation to the CFTA negotiations. However, efforts shall be made to assist members in mobilizing resources for negotiations. In total the Commission has secured approximately US \$ 18 million for the period 2016-2017, excluding in-kind technical assistance from the African Trade Policy Centre, the Trade Advocacy Fund (extension of project foreseen for additional 6-9 months), inter alia.

E. Capacity Needs of the AUC

8. In line with the BIAT/CFTA Decision of 2012, which was re-echoed by the 9th CAMOT the Commission was charged with the responsibility to coordinate and provide overall guidance for the CFTA negotiations as well as serve as secretariat for the implementation process and for the High Level African Trade Committee (HATC). With this responsibility the Department of Trade and Industry was also mandated to strengthen its capacity in order to deliver on its mandate. In this regard, a CFTA Support Unit will be incorporated within the department's organogram to facilitate the CFTA negotiations.

9. The CFTA Support Unit will also provide technical and negotiating assistance to countries that need them during the course of the negotiations.

F. Capacity Needs of the RECs and Member States

10. Capacity constraints is an important consideration for the negotiations, and will require a mapping of available support for building negotiating capacity, especially within the continent's LDCs, as well as potential options for future support programmes. There is need for capacity building/training in among other areas - rules of origin, customs and trade facilitation, Health and Safety Standards, Trade Remedies and trade in services in trade negotiations.

11. A capacity needs assessment will be conducted with support from technical partners between June 2015 and March 2016.

G. Schedules of CFTA Negotiations

12. The 18th Ordinary Session of the Assembly of Heads of State and Government of the African Union, which was held in January 2012 in Addis Ababa, Ethiopia, agreed on the establishment of a Continental Free Trade Area (CFTA) by an indicative date of 2017.

Significant progress has been made in preparation for the negotiations. The 24th Ordinary Session of the Assembly of Heads of State and Government of the African Union in January 2015 reaffirmed its commitment to launch the CFTA negotiations by June 2015. The objective of this schedule is to outline the following period major milestones in the negotiations for the establishment of the CFTA period: the post launch preparatory period, the negotiations period, the finalisation of the CFTA Agreement, and the ratification/domestication and entry into force of the CFTA agreement.

13. The preparatory period is expected to start immediately after the launch in July 2015 for a period of six to twelve months and will be used to prepare for the negotiations at all levels- national, regional and continental. During the preparatory period, Member States and RECs may prepare negotiating mandates to guide their negotiators during the CFTA negotiations. A number of capacity building initiatives will be implemented aimed at strengthening the capacity of Member States and RECs to engage effectively in the negotiations. The CFTA-Negotiating Forum is expected to organise its initial meetings and adopt a schedule of negotiations during the preparatory period. The preparatory period will also include exchange of relevant trade information and statistics among negotiating parties, RECS and the AUC.

14. The preparatory period will be followed by the negotiations period, which shall be marked by the commencement of negotiations. Negotiations will be carried out within the framework of the Institutional Arrangements for the Negotiation of the CFTA as well as the objectives, negotiating principles and roadmap for the negotiations.

15. The negotiating period will be followed by the finalisation period of the CFTA negotiations from October to December 2017. The legal scrubbing of the agreement is expected to take place during this period. The CFTA agreement will be approved by the AU Assembly of Heads of State and Government of the African Union and signed by the Member States. The final period of the process is the ratification and domestication of the Agreement establishing the CFTA by Member States according to their national laws to pave way for the implementation.

16. The CFTA-Negotiating Forum will adopt a schedule for its meetings, in line with its reporting obligations according to the Roadmap.

17. The efforts to advance the implementation of the industrial and infrastructure initiatives should be aligned with the CFTA. There should be progress reports on on-going industrialisation and infrastructure development initiatives to the CFTA negotiation structures.

18. Tentatively, the matrix below presents a schedule of meetings based on the three identified periods:
