ASSEMBLY OF THE UNION
Eighteenth Ordinary Session
29– 30 January 2012
Addis Ababa, ETHIOPIA

Assembly/AU/5(XVIII)
Original: English

**REPORT OF THE COMMISSION ON THE IMPLEMENTATION
OF PREVIOUS DECISIONS OF THE EXECUTIVE
COUNCIL AND THE ASSEMBLY**

**REPORT OF THE COMMISSION ON THE IMPLEMENTATION
OF PREVIOUS DECISIONS OF THE EXECUTIVE
COUNCIL AND THE ASSEMBLY**

INTRODUCTION:

1. The Decisions taken by the Policy Organs, namely: the Executive Council and the Assembly of the Union during their Ordinary, Extraordinary and Special Sessions, constitute the legal basis upon which the Commission and the other organs of the Union as well as other stakeholders and Partners such as Regional Economic Communities (RECs) derive the authority and mandate to carry out activities aimed at fostering the continental integration process and global networking.

2. RULE 4 1(b) of the Rules of Procedure of the Assembly states: << The Assembly shall monitor the implementation of Policies and Decisions of the Union as well as ensure compliance by all Member States through appropriate mechanisms; ...">>. In a similar provision, RULE 5 1(d) of the Rules of Procedure of the Executive Council states: << The Executive Council shall monitor the implementation of the Policies Decisions and Agreements adopted by the Assembly>>. Furthermore, one of the recommendations of the Panel on the Audit of the African Union which was endorsed by the Assembly has insisted on the need to report to each session of the Assembly for it to ensure that its Decisions are fully enforced. Reporting on the implementation of previous decisions of the Assembly and the Executive Council has therefore become a mandatory feature on the agendas of these two organs during their Ordinary Sessions as this constitutes an effective mechanism in ensuring that there is a follow up on decisions taken.

3. In the light of the foregoing therefore, and conscious of the concerns expressed by both the Assembly and the Executive Council on the need to improve on both the content and format of the report (the quality of information captured and the reader-friendliness of the document), the Commission has focused on the Decisions taken at the 16th Summit in Addis Ababa, Ethiopia, in January 2011 and at the 17th Summit in Malabo, Equatorial Guinea, in June/July 2011, which have been consequently presented in a simplified manner.

4. The compiled report summarizes progress made on the implementation of Decisions of the Executive Council and the Assembly of the Union for the period under review and provides information on actions taken to promote and facilitate cooperation among Member States, especially in the areas relating to Peace and Security, Administration, Finance, Social-economic, Scientific, Cultural and Political matters in which the Commission was required to take action.

5. It is worth mentioning that the majority of Decisions are expected to be implemented by the Member States themselves. To facilitate the reporting on these Decisions, the Commission took the initiative to identify the pertinent provisions of the Decisions which are to be implemented by the Member States for the last two Summits

(Malabo, June/July 2011 and Addis Ababa, January 2011). The Commission forwarded these Decisions to Member States, requesting them to submit relevant information on the status of their implementation, by 1st September 2011. As of the time of finalizing this report, only one Member State (Burkina Faso) made a submission. A reminder note was sent by the Commission to sensitize Member States on the issue.

6. An analysis of the information on the implementation of previous Decisions reveals that a number of technical, human, material and financial challenges were encountered and were largely responsible for the partial implementation or in some cases the non-implementation of some decisions. In this regard, the Commission would like to draw the attention of the Assembly and the Executive Council to the recommendations on how to overcome these challenges, thus contributing to the overall improvement of implementation of Decisions.

7. The Commission on its part, would continue to work closely with the Permanent Representative's Committee (PRC) and to explore ways and means of improving on the format of the report as well as on timely reporting. In the same vein and following the adoption in Malabo, Equatorial Guinea in June/July 2011, of the Guidelines on elaboration of Decisions and time frame for reporting, the number of Decisions taken by the Policy organs in future Summits is expected to reduce significantly.

Also in attendance were representatives of the UN system. Its purpose was to familiarise participants with the issues involved in the elaboration of such a programme, thus laying the foundation for a needs- assessment exercise which was about to be undertaken through a process of engagement between a team of consultants [working under the guidance of the RCM Joint Secretariat] with departmental programme managers of the Commission, regarding their capacity building needs. This departmental needs-assessment exercise which then followed, was undertaken from September to November 2011, according to the principle of AU ownership of the implementation of the TYCBP.
