Senior Leadership Position Curriculum Vitae (CV) Template

Position: *(Indicate the title of the position you are applying for)*

Commissioner, Department Agriculture, Rural Development, Blue Economy and Sustainable Environment

Personal Information:

Name:	Ambassador Josefa Leonel Correia SACKO
Physical Address:	Department of Rural Development and Agriculture African Union Commission Roosevelt Street P. O. Box 3243 Addis Ababa, Ethiopia
E-mail Address:	Leonelcor@yahoo.fr
Phone Number:	+251911503404
Date of Birth (dd/mm/yy):	15 March 1958
Nationality:	Angolan
Citizenship:	Angola
Gender:	Female

Vision Statement *(In not more than one thousand (1,000) words, outline how you intend to achieve the aspirations set out in Agenda 2063 and address the most pressing issues facing Africa and the Commission in this role)*

The Department of Rural Economy and Agriculture (DREA) was created by an Executive Council Decision (EX/CL/Dec. 34(III)) of July 2003 in Maputo, Mozambique. The current mandate of the department is to initiate and promote policies and strategies that can contribute to the development of the rural economy, particularly through the improvement of agricultural productivity and growth of the sector as a whole. DREA is also charged with the responsibility of promoting measures that will

contribute towards enhancing environmental sustainability, disaster risk reduction and promotion of the blue economy in Africa as part of the ongoing reform.

Agenda 2063, Africa's economic transformation blueprint, is very clear on the central role of agriculture. This is not surprising given that agriculture is the mainstay of most African economies, accounting for 16 per cent of the gross domestic product of Sub-Saharan Africa in 2018 (ranging between 2% in Botswana to 59 % in Sierra Leone - the highest in the world), 65% of the continent's labour force and 75% of its domestic trade.

As stated in the first 10 Years Plan of Agenda 2063, the Comprehensive Africa Agriculture Development Program (CAADP) is the flagship program of the Department. African Heads of State and Government first adopted the CAADP Program in 2003 in Maputo, Mozambique, with the aim of transforming Africa's agriculture to ensure food and nutrition security in Africa, reduce poverty and create jobs. In 2014, African Heads of State and Government adopted the Malabo declaration, with a wider mandate and more specific goals and targets. They tasked the Africa Union Commission with its implementation

Africa is currently not on track to achieve the Malabo Declarations. As shown by the 2020 Biennial Review Report, only 4 countries are on track to meet the Malabo Declarations by 2025. 36 countries however improved on their performance relative to the 2018 Report.

Africa's agriculture has been hit by three consecutive shocks in as many years: the Fall Armyworm in 2018, the desert locusts in the Horn of Africa in 2019, the biggest locust outbreak in the last 70 years and now COVID-19 in 2020. Before COVID-19 hit, 820 million people were already under-nourished globally, many of them in Africa according to FAO. We were already grappling with conflict in the Sahel and Horn of Africa; drought and flood extremes due to climate change and increasing food importation bill of more than \$47 billion in 2019.

Despite a late arrival in Africa, the coronavirus outbreak continues to worsen in many countries in Africa. The COVID-19 health crisis has brought on an economic crisis, and is rapidly exacerbating an ongoing food security and nutrition crisis. Anti-pandemic measures implemented by countries to save lives like nationwide lockdowns and border closures compound food shortages while restrictions on movement and quarantine measures impeded crop calendars and farmers' access to markets. Having served as Commissioner for Rural Development and Agriculture in the past four years, I understand the constraints confronting DREA first hand and I have been working diligently with member states and RECs to confront them. Some of my accomplishments are:

- Disasters, particularly related to hydro-meteorological hazards, extreme climate and weather phenomena are increasing across Africa. Determined to arrest this trend, we established the Disaster Risk Reduction (DRR) Unit in 2017 and this has led to a more aggressive pursuit of the DRR work plan of the AUC. I am currently collaborating with NATO to establish an African early warning system.
- Cooperation with EU led to the production of the Task Force Report on Rural Africa in 2019, the first report to deliver concrete policy recommendations for the Africa-Europe Alliance. The Report which has been lauded by European parliamentarians and adopted by the third AU-EU Agriculture Ministerial Conference held on 21 June 2019 provides some far-reaching recommendations on how to transform rural areas in Africa.

Fax: 251115518718/251115536950 Website: www.au.int

- In an effort to reduce the drudgery by women in value chain production system and continue the campaign to “confine the hand-held hoe to the museum”, held the Inaugural West African edition of “Sending the Hoe to the Museum” on 14th and 15th October, 2019 in Bobo Dioulasso, Burkina Faso in commemoration of International Rural Women Day with the unveiling of a beautiful statue. The event which attracted over 2,000 rural women will be co-hosted by different sub-regions in Africa every year.
- I led a major initiative by the African Union represented by DREA to collaborate with FAO to hold a Ministerial Meeting on 16th April 2020 to evaluate the implications of COVID-19 on food security in Africa. All 55 AU member states were represented at this meeting which came up with some far-reaching recommendations and a political declaration. A task force comprising all the major players in African agriculture has since been constituted to oversee the implementation of the actions identified by the Ministers in the Declaration and reporting back progress. The task force which comprises the African Union Commission FAO; European Union; African Development Bank; World Bank; IFAD; World Food Program; and AUDA-NEPAD has organized itself into four work streams through which they are responding to the pandemic.

We need to continue to frontally confront all the challenges confronting African agriculture and transform the advantages of this sector into a fulcrum of development. Africa has roughly 65 percent of the world's uncultivated arable land, a young and vibrant labor force, a rising middle class coupled with rapid urbanization and large regional markets with the signing of the Continental Free Trade Area (CFTA) in March 2018.

If re-elected for a second term, I would certainly want to continue my good work and intensify efforts in countering climate change and conflict that are retarding the gains made in African agriculture in the past three years in addition to unravelling the impact of the novel COVID-19 on African agriculture, especially rural farmers, women and youth.

Executive Profile: *(In not more than three hundred (300) words, provide a summary and highlights of your relevant skills, experience, goals and accomplishments)*

I have the requisite training, skills and experience for the job of Commissioner of Rural Economy and Agriculture of the African union. I trained in Agronomy from one of Nigeria's foremost Universities between 1978 and 1982. I subsequently bagged a Masters in General Management in 2008 and three other postgraduate degrees in Trade, Project Management and International Relations all from very reputable institutions.

I have more than twenty years' experience working on policy issues and leading top institutions in Africa. Prior to my election in as DREA Commissioner in 2017, I was Secretary-General of the Inter African Coffee Organization, one of Africa's oldest inter-governmental organisation for 13 years. I also served as Special Adviser to two Ministers in Angola, the Angolan Minister of Environment and Advisor to the Minister of Agriculture. I was also Executive Administrator of Angola Fund to Manage Agrarian Development (*Fundo de Apoio ao Desenvolvimento Agrario*). In recognition of my service to Angola, I was appointed a Career Ambassador in 2018 by the Angolan Government.

As DREA Commissioner from 2017 to 2020, I carried out several decisive actions that have helped to shake up the Water and Environment sector, by strengthening programs on the Great Green Wall, revitalizing the African Vision of Water 2025, as well as the lively debates on climate change issues. As a prominent negotiator in the win-win partnerships with the EU, the FAO, and China, I supporting African countries in implementing the commitments of the AU Heads of State and Governments. In appreciation of my efforts, I have been rewarded with several awards including serving as United Nation's Champions 12.3 Ambassador since 2018 accelerating progress towards achieving SDG Target 12.3 by 2030; I was named one of the 100 Most Influential People in Climate Policy on the continent in March 2019; and nominated by the United Nations Secretary-General as member of Scale Up Nutrition Movement Lead Group in May 2019 in recognition of my strong commitment to the fight against malnutrition.

I am computer literate and I have excellent communication and inter-personal skills. I am also multilingual with proficiencies in English, French, Portuguese and Spanish.

Skills and Competencies *(In not more than five hundred (500) words, demonstrate how your experience and qualifications match the skills and competences outlined in the role profile of the position you are applying for)*

The primary job of the Commissioner of the Department of Agriculture, Rural Development, Blue Economy and Sustainable Environment (DARBE) is initiating, promoting and monitoring policies and strategies that would contribute to the development of the rural economy, agricultural transformation, environmental sustainability and the blue economy in Africa.

My educational qualifications and over 20 years of professional experience in Inter-Governmental Organizations has prepared me to work as Commissioner in an agenda setting and multicultural institution like the African Union Commission.

The position of Commissioner will avail me the opportunity to continue to share my experience and deep passion for the implementation of Agenda 2063, the Africa we want by striving to attain Malabo goals which include ending hunger in Africa and halving poverty all by the year 2025; modernizing Africa's agriculture to meet the task of feeding 2.4 billion people by 2050 in addition to the rapid urbanization which is changing Africa's food systems.

My deep knowledge of the current challenges confronting African agriculture would assist the Commission to continue to confront them. The impact of climate change that has unleashed major challenges such as the Lake Chad issue, the El-Nino in Southern Africa, Cyclones Bennet and Idai that devastated Mozambique, Malawi and Zimbabwe in 2019; the management of water resources of the Nile, the deadly migration through the Mediterranean to Europe embarked upon by African youths even when they should be gainfully employed in the agricultural sector given the right incentives; reducing the burdens of rural African women through large-scale actions on agricultural mechanization, and addressing conflict induced hunger are amongst the strategic questions that remain at my heart of transforming African agriculture. Resolution 2417 passed by the United Nations Security Council in May 2018 and the African Union Silencing the Guns Initiative already provides us with frameworks for addressing conflict-induced hunger.

I am determined to change the narrative of Africa expending about 47 billion annually on food imports which it can ill afford and this is anticipated to reach 110 billion annually from 2025. I have already introduced a program for establishing transboundary Agro-Industrial Parks Program (CAAPs) endorsed by African Heads of State to take advantage of the African Continental Free Trade Agreement (AfCFTA). We must encourage African youths by introducing start-ups in the continental Agribusiness and Digital strategies.

Agenda 2063 under Aspiration 1 strives to foster blue economy growth in Africa. The opportunities for Africa's blue economy development in Africa are vast and limitless given the 38 coastal and island states, and over 47,000 kilometers coastline with massive opportunities to develop fisheries, shipping, energy and coastal tourism among other sectors.

With an expanded mandate as part of ongoing AU Reform, DREA has already formulated "The Africa Blue Economy Strategy". The Strategy which is informed by international best practices and identifies five thematic areas as critical vectors was launched at a high profile ceremony in February 2020

AFRICAN UNION

attended by the UN Secretary-General, the Prime Ministers of Canada and Norway. The critical next step is to popularize this strategy and its implementation by countries and RECs.

Achievements/Accomplishments: *(In not more than five hundred (500) words, indicate any other achievements besides those under work experience you would like to highlight)*

The following are the main achievements besides those under work experience:

- Excellent working relationship with members of the Commission- Chairperson, Deputy Chairperson and all Commissioners.
- Excellent working relationship with African Ministers of Agriculture, Environment and Water and Sanitation. Also work well with Specialized Technical Committee on Agriculture, Rural Development, Water and Environment
- Intense knowledge of African Countries and their agricultural, water and sanitation and Environment sectors.
- Good working relationship and excellent record of collaboration with all major stakeholders in the agricultural sector in Africa including the African Development Bank, the European Union, IFAD, FAO, IFPRI, World Bank, World Food Program, and AUDA -NEPAD.
- Good interpersonal relations with all DREA Staff and institutionalized DREA Senior Staff quarterly meetings is creating team spirit and collegiate working environment around all DREA Programs.
- Deep passion for rural women and youth and this is reflected in their being mainstreamed in the conduct of most of the Department's business,
- Strengthened collaboration with AUDA-NEPAD resulting in good good working relationship.
- Has keenly protected the interests of women and family farmers who produce about 80 % of Africa food. In December 2019, I was named one of the 100 Most Influential Africans by New African for holding African governments to account for their commitment to agriculture and defending the interests of African farmers.
- Good track record in advocacy with parliamentarians for support to CAADP.

Senior Leadership Position Curriculum Vitae (CV) Template

Position: <i>(Indicate the title of the position you are applying for)</i>
Agriculture, Rural Development, Blue Economy and Sustainable Environment.

Personal Information:	
Name:	Ernest Reuben AUBEE
Physical Address:	ECOWAS Commission, 101 Yakubu Gowon Crescent, Asokoro District, Abuja, Nigeria.
E-mail Address:	Aubee2008@yahoo.com
Phone Number:	+2348062863719
Date of Birth (dd/mm/yy):	10 th August 1960
Nationality:	Gambian
Citizenship:	Gambian
Gender:	Male

Vision Statement *(In not more than one thousand (1,000) words, outline how you intend to achieve the aspirations set out in Agenda 2063 and address the most pressing issues facing Africa and the Commission in this role)*

The Agenda 2063 is the blueprint for the attainment of the Africa that we want. A continent that can be counted amongst the global community that is peaceful, prosperous, economically viable, environmental stable and one that generates positive development in all areas of human development. My vision is to ensure that the African Continent moves from stagnation to prosperity. Moves from hunger to food and nutrition security. The continent must move from conflicts to peaceful existence and the natural resources of the continent must benefit the vast majority of its people. A critical resource is the human resources and this must be enhanced by investing in people.

In terms of the Agriculture, Rural Development, Blue Economy and Sustainable Environment. I intend to evaluate the progress made since the implementation of Agenda 2063 and develop strategies that will accelerate the attainment of the objectives of these sectors. I will ensure that there is synergy between global and continental policies such as SDG, Malabo Declaration 2014 and the agricultural

AFRICAN UNION

policies of Regional Economic Communities. The continent does not lack relevant policies, what it lacks is the ability for proper and timely implementation of continental policies, decisions and regulations. To this end I intend to promote human capital development, investment in technology, enhance policy coherence and improve the capacity of these sector to develop resilience mechanism for the covid 19 and post covid 19 periods.

The transformation of African agriculture requires increased investments by African Governments and development partners. African Governments needs to live up to their commitments of providing 10% of national budgets to the development of the agriculture sector (Crops, Livestock, Fisheries and Aquaculture, Forestry, Wildlife and Rural Infrastructure). Governments will be engaged to look inwards first to fund the sector before relying on external support. I intend to ensure that the Biennial Review Report serve as a tool for national Governments to help improve overall performance of the agriculture sector commitments.

Agriculture is critical for the enhancement of livelihoods and the alleviation of poverty in the Member states. Agriculture transformation will not be pursued in isolation of other sectors. Emphasis will be placed on developing the forward and backward linkages of the sector. A good example is the Planting for Food and Jobs (PFJ) of Ghana or the Niger Nourishing Nigeriens (3N) programme of Niger. Special attention will be placed on developing targeted programmes for women, youths and the marginalized. Agriculture should be re-oriented as a business as opposed to a way of life. The improvement of agricultural value chains will enable the creation of more job opportunities for women and youths and at the same time improve the overall economic wellbeing of our populations.

The operationalization of the African Continental Free Trade Area provides a great opportunity for the enhancement of agricultural trade and I will work to ensure that the agriculture sector is well positioned at the continental and regional level to take advantage of the opportunities that this economic integration provides.

Executive Profile: *(In not more than three hundred (300) words, provide a summary and highlights of your relevant skills, experience, goals and accomplishments)*

I have a wealth of experience bordering on Agriculture, Integrates Rural Development, Environmental Management and Poverty Alleviation. I have over thirty years' experience working for International NGOs such as Catholic Relief Services and Action Aid International, ILO, UNDP and the ECOWAS Commission. I have occupied senior management and programme leadership positions in all these organisations. I have policy formulation and implementation experiences, programme / project management skills and the management of multi sectorial development interventions.

At the level of the ECOWAS Commission, I have served in a number of continental committees which have given me insight into the implementation of the Agenda 2063. I currently serve in the steering committee of PACA, LPI/ALPC, EOA- Initiative, SPS, SAFGRAD, Biotechnology, Food Safety and Nutrition with AUDA-NEPAD.

In terms of experiences, I have wide ranging policy coordination and implementation experiences, resource mobilization, management of diverse teams of professionals in ILO and UNDP. I have successfully implemented multi-million dollar projects in ECOWAS such as the West Africa Agriculture Productivity Programme (WAAPP) of ECOWAS/World Bank / CORAF and Member states. At the level of ILO and UNDP I implemented a flagship poverty programme called Fight Against Social and Economic (FASE) Programme. At the level of the Catholic Relief Services, I lead a very successful crop diversification programme in the Gambia with Sesame. At Action Aid, I implemented a very successful rural integrated development programme in rural Gambia. I am very conversant with development issues at the national, regional, continental and global levels after with over three decades of relevant experience.

My goal is to contribute in an effective and efficient manner to the realisation of the objectives of the Agenda 2063, especially in the areas of food and nutrition security, agricultural transformation and diversification and introduce innovative approaches to the management of the Department. I intend to provide a strong strategic leadership based on results based management principles.

In terms of accomplishment, I have worked on all areas of policy and programme cycles in the Gambia and in the ECOWAS Commission and me achieved outstanding results in all areas of my work. I have received national and international awards. In 2018, I received an award from the African Union Commission for my work on Aflatoxin on the Continent with regards to policy and the creation of an enabling environment. I have also received commendation from UNDP and ILO for the successful programmes I implemented over the years. At UNDP, I rose to become the most senior Gambian in the organization (NOD-Level). In all these various positions, I was able to generate substantial financial resources in all the positions that I held and all my policy and programme work have been highly rated by independent evaluators.

Position Held (Title of the role)

Principal Programme Officer and Head of Division- Agriculture

Duration (Start Date to End Date)

July 2008 – To date

Number of People Supervised

4 People

Responsibilities

Responsible for the management of the agriculture division of the ECOWAS Commission. I manage the food and nutrition security, natural resources management, rural development and poverty alleviation portfolios. I am also responsible for the development of regional policies and regulations and supervise their implementation in the ECOWAS Member states.

I supervise the implementation of regional policies on seeds, fertilizers, pesticides and SPS. I am also responsible for the domestication and mainstreaming of continental policies and decisions as they relate towards food and nutrition. I cover all aspects of CAADP/ Malabo Declaration implementation

I also represent the ECOWAS Commission in regional and continental bodies in the areas of PACA, APLC/LPI, SPS, SAFGRAD, Seeds, Fertilizers, Pesticides, Biotechnology, Ecological Organic Agriculture, Scaling Up Nutrition and Zero Hunger Initiative amongst others.

In the area of natural resources management, I am part of the team that is implementing climate smart agriculture initiatives in my department and serve as the focal point for the core Rio conventions.

I have participated in the development of a number of projects such as the Community Development Project, West African

	<p>Agriculture Productivity Programme. I have also developed social safety net programmes during the Ebola and covid 19 outbreaks. My responsibilities also covers resource mobilization, monitoring and evaluation. I also work with a number of development and technical partners.</p>
<i>Achievements</i>	<p>I have registered a number of achievements in the execution of my responsibilities. The WAAPP was a World Bank /ECOWAS programme covering 13 ECOWAS Member states. It was able to produce agricultural technologies for the key food value chains and centres of specializations were developed.</p> <p>The Partnership for Aflatoxin Control Programme (PACA) was well managed in the region leading to the adoption of the Aflasafe Technology in most ECOWAS Member states. I was recognized by the African Union Commission for the exceptional work in Policy and Creating an Enabling Environment for Aflatoxin mitigation in Africa.</p> <p>I supported the ECOWAS Member states in the design of the first and second generation of National Agriculture Investment Plan for Food and Nutrition Security (NAIP-FNS) and the Regional Agriculture Investment Plan for Food and Nutrition Security (RAIP-FNS). A number of emerging issues such as nutrition, climate change and land governance were mainstreamed into the regional and national plans. I was also involved directly in the resource mobilization efforts in which substantial amounts were pledged.</p> <p>I was also actively involved in the development of policies and strategies in the ECOWAS Commission. These included the Harmonized Land Policy Framework, The ECOWAS Nutrition Strategy, and The Regional Reduction Poverty Strategy Paper. Actively participated in the negotiations of the ECOWAS Common External Tariff (CET) by ensuring that agricultural issues were included in the the fifth band of the tariff in order to support local food production in the Member states.</p> <p>During the implementation of ECOWAS Agriculture Policy from 2005-2015, the region registered an increase in the production of coarse grains. This was due to the strong partnership developed with Member states and other actors.</p> <p>I have organized capacity development programmes for the ECOWAS Member states which have helped to fill some of the technical skills gaps in the areas of biotechnology, soil fertility</p>

Conducted a successful evaluation of a major rice project called the Small Scale Water Control Programme. The outcome of the evaluation lead to the redesign of the project for greater delivery. (b) Produced five editions of the Action Aid Development Magazine (Yiriwa Kibaro). Conducted several training programmes on development communications for staff and national partners. Successfully implemented the communication strategy of Action Aid. Promoted the use of traditional communicators in the dissemination of health, agriculture, environment and education messages in rural Gambia. Training of Village Development Committees on Good Governance and Accountability. (c) I was rated as the best Programme Manager with an implementation rate of over 90%. Implemented very successful food rights campaign and the Gambia was considered as a reference point for other Action Aid Country programmes in West Africa. Community based management (CBM) implemented and a comprehensive phase out programme developed which transferred authority to the communities. (d) The cross border programmes in Senegal and Guinea Bissau. Supervised the establishment of a new Development Area in Eastern Gambia. A gender and development strategy was developed for the Gambia country programme and this lead to targeting development interventions at vulnerable problems Issues of social and economic safety nets were introduced. The successful implementation of the French Government funded Food Security Project lead to the renewal of the project for a continuation of the project for a second phase. (e) Served as an Acting Director of Programmes and contributed immensely to the development of new country strategy with a paradigm shift from service provision to

Responsibilities	
Achievements	

Skills and Competencies (In not more than five hundred (500) words, demonstrate how your experience and qualifications match the skills and competences outlined in the role profile of the position you are applying for)

Based on the above descriptions, I have the relevant skills and competencies that are required for the position. I have over the years worked at both community level and at policy level. I understand the structural and fundamental problems of African agriculture, rural development, blue economy and sustainable environment. The solutions to the problems of these sectors requires someone with practical experience and understanding of issues. In this regard, I am willing and ready to provide strategic and strong leadership with the Agenda 2063 as my guide. I have worked at national and regional levels in trying to address the structural problems of agriculture. I have also worked very closely with the African Union Commission by been a member of various continental committees such as Partnership for Aflatoxin Control in Africa (PACA), Land Policy Initiative/ African Land Policy Centre, SPS, SAFGRAD, Biotechnology, Nutrition, Food Safety.

I have over three decades of relevant competencies outlined in the role profile of the position. I have excellent skills in policy formulation, team building, strategic leadership, capacity development and resources mobilization and have worked with a verse array of development partners at the national, regional, continental and global levels. I have worked with a verse array of development partners such as UNDP, ILO, FAO, EU, World Bank, IFAD, UN Habitat, UNECA, UNIDO, AfDB, Meridien Institute, Global Environment Facility and many others.

My over thirty years of work in various organisations and positions have provided me with special skills in managing human, financial and physical resources. The success of an organization is to a large extent dependent on the quality of human resources at the disposal of the organization. I will invest in human capacity development at the continental, regional and country levels. There must be a clear line of demarcation between the roles and responsibilities of AUC, RECs and Member states. The principle of subsidiarity will be observed with the RECs and Member states.

I will endeavour to strengthen partnership between African institutions such as the AUC, RECs, UNECA, African Private Sector, Pan African Parliament, AUDA-NEPAD, USDA, USAID, CSOs/ NGOs

and that are committed to the attainment of the objectives of Agenda 2063 and in particular the sectors of agriculture, rural development, blue economy and sustainable environment. In line with the objectives of Agenda 2063, I will prioritise my interventions as follows:

1. Investment in Agriculture
2. Transformation of the Rural Economy/ Rural Development
3. Diversification into the blue economy(Fisheries and Aquaculture)
4. Promotion of sustainable environmental practices e.g. the development of smart agriculture programmes.

Achievements/Accomplishments: *(In not more than five hundred (500) words, indicate any other achievements besides those under work experience you would like to highlight)*

Besides the work related achievements, I have achieved the following awards, commendations and appointments:

1. The Winner of the 1993 Bob Griffith Class Prize for Seed Technology, University of Edinburgh.
2. Member of the National Order of the Republic of the Gambia(MRG)- 2009
3. African Union Commission, Agent of Change Award for Aflatoxin – Policy and Enabling Environment -2018
4. Ecological Organic Award for Contributions to Organic Agriculture Development- 2018
5. ECOWAS Commission Merit Award – 2018
6. Knight of John Wesley(KJW), Methodist Church Nigeria-2019
7. ODASSS Fellow, University of Edinburgh, 1992
8. Part-Time Lecturer, University of the Gambia (Seed Technology and Horticulture) 2000-2008
9. Member of Private Sector Steering Committee, European Commission Support Unit, Banjul.
10. Chairman, National Seed Committee, Ministry of Agriculture 2006-2008
11. Vice President of the Gambia Seed Traders Association 2004 2008
12. Chairman Board of Directors Equigambia Association- 2004-2006
13. Chairman, Board of Governors, Gambia Technical Training Institute- 2002-2008
14. Member PACA Steering Committee- AUC
15. Member Land Policy Initiative- UNECA, AfDB, AUC,

Vision Statement *(In not more than one thousand (1,000) words, outline how you intend to achieve the aspirations set out in Agenda 2063 and address the most pressing issues facing Africa and the Commission in this role)*

The Agenda 2063 is the blueprint for the attainment of the Africa that we want. A continent that can be counted amongst the global community that is peaceful, prosperous, economically viable, environmental stable and one that generates positive development in all areas of human development. My vision is to ensure that the African Continent moves from stagnation to prosperity. Moves from hunger to food and nutrition security. The continent must move from conflicts to peaceful existence and the natural resources of the continent must benefit the vast majority of its people. A critical resource is the human resources and this must be enhanced by investing in people.

In terms of the Agriculture, Rural Development, Blue Economy and Sustainable Environment. I intend to evaluate the progress made since the implementation of Agenda 2063 and develop strategies that will accelerate the attainment of the objectives of these sectors. I will ensure that there is synergy between global and continental policies such as SDG, Malabo Declaration 2014 and the agricultural

AFRICAN UNION

policies of Regional Economic Communities. The continent does not lack relevant policies, what it lacks is the ability for proper and timely implementation of continental policies, decisions and regulations. To this end I intend to promote human capital development, investment in technology, enhance policy coherence and improve the capacity of these sector to develop resilience mechanism for the covid 19 and post covid 19 periods.

The transformation of African agriculture requires increased investments by African Governments and development partners. African Governments needs to live up to their commitments of providing 10% of national budgets to the development of the agriculture sector (Crops, Livestock, Fisheries and Aquaculture, Forestry, Wildlife and Rural Infrastructure). Governments will be engaged to look inwards first to fund the sector before relying on external support. I intend to ensure that the Biennial Review Report serve as a tool for national Governments to help improve overall performance of the agriculture sector commitments.

Agriculture is critical for the enhancement of livelihoods and the alleviation of poverty in the Member states. Agriculture transformation will not be pursued in isolation of other sectors. Emphasis will be placed on developing the forward and backward linkages of the sector. A good example is the Planting for Food and Jobs (PFJ) of Ghana or the Niger Nourishing Nigeriens (3N) programme of Niger. Special attention will be placed on developing targeted programmes for women, youths and the marginalized. Agriculture should be re-oriented as a business as opposed to a way of life. The improvement of agricultural value chains will enable the creation of more job opportunities for women and youths and at the same time improve the overall economic wellbeing of our populations.

The operationalization of the African Continental Free Trade Area provides a great opportunity for the enhancement of agricultural trade and I will work to ensure that the agriculture sector is well positioned at the continental and regional level to take advantage of the opportunities that this economic integration provides.

Executive Profile: *(In not more than three hundred (300) words, provide a summary and highlights of your relevant skills, experience, goals and accomplishments)*

I have a wealth of experience bordering on Agriculture, Integrates Rural Development, Environmental Management and Poverty Alleviation. I have over thirty years' experience working for International NGOs such as Catholic Relief Services and Action Aid International, ILO, UNDP and the ECOWAS Commission. I have occupied senior management and programme leadership positions in all these organisations. I have policy formulation and implementation experiences, programme / project management skills and the management of multi sectorial development interventions.

At the level of the ECOWAS Commission, I have served in a number of continental committees which have given me insight into the implementation of the Agenda 2063. I currently serve in the steering committee of PACA, LPI/ALPC, EOA- Initiative, SPS, SAFGRAD, Biotechnology, Food Safety and Nutrition with AUDA-NEPAD.

In terms of experiences, I have wide ranging policy coordination and implementation experiences, resource mobilization, management of diverse teams of professionals in ILO and UNDP. I have successfully implemented multi-million dollar projects in ECOWAS such as the West Africa Agriculture Productivity Programme (WAAPP) of ECOWAS/World Bank / CORAF and Member states. At the level of ILO and UNDP I implemented a flagship poverty programme called Fight Against Social and Economic (FASE) Programme. At the level of the Catholic Relief Services, I lead a very successful crop diversification programme in the Gambia with Sesame. At Action Aid, I implemented a very successful rural integrated development programme in rural Gambia. I am very conversant with development issues at the national, regional, continental and global levels after with over three decades of relevant experience.

My goal is to contribute in an effective and efficient manner to the realisation of the objectives of the Agenda 2063, especially in the areas of food and nutrition security, agricultural transformation and diversification and introduce innovative approaches to the management of the Department. I intend to provide a strong strategic leadership based on results based management principles.

In terms of accomplishment, I have worked on all areas of policy and programme cycles in the Gambia and in the ECOWAS Commission and me achieved outstanding results in all areas of my work. I have received national and international awards. In 2018, I received an award from the African Union Commission for my work on Aflatoxin on the Continent with regards to policy and the creation of an enabling environment. I have also received commendation from UNDP and ILO for the successful programmes I implemented over the years. At UNDP, I rose to become the most senior Gambian in the organization (NOD-Level). In all these various positions, I was able to generate substantial financial resources in all the positions that I held and all my policy and programme work have been highly rated by independent evaluators.

Duration (Start Date to End Date)

July 2008 – To date

Number of People Supervised

4 People

Responsibilities

Responsible for the management of the agriculture division of the ECOWAS Commission. I manage the food and nutrition security, natural resources management, rural development and poverty alleviation portfolios. I am also responsible for the development of regional policies and regulations and supervise their implementation in the ECOWAS Member states.

I supervise the implementation of regional policies on seeds, fertilizers, pesticides and SPS. I am also responsible for the domestication and mainstreaming of continental policies and decisions as they relate towards food and nutrition. I cover all aspects of CAADP/ Malabo Declaration implementation

I also represent the ECOWAS Commission in regional and continental bodies in the areas of PACA, APLC/LPI, SPS, SAFGRAD, Seeds, Fertilizers, Pesticides, Biotechnology, Ecological Organic Agriculture, Scaling Up Nutrition and Zero Hunger Initiative amongst others.

In the area of natural resources management, I am part of the team that is implementing climate smart agriculture initiatives in my department and serve as the focal point for the core Rio conventions.

I have participated in the development of a number of projects such as the Community Development Project, West African

	<p>Agriculture Productivity Programme. I have also developed social safety net programmes during the Ebola and covid 19 outbreaks. My responsibilities also covers resource mobilization, monitoring and evaluation. I also work with a number of development and technical partners.</p>
<i>Achievements</i>	<p>I have registered a number of achievements in the execution of my responsibilities. The WAAPP was a World Bank /ECOWAS programme covering 13 ECOWAS Member states. It was able to produce agricultural technologies for the key food value chains and centres of specializations were developed.</p> <p>The Partnership for Aflatoxin Control Programme (PACA) was well managed in the region leading to the adoption of the Aflasafe Technology in most ECOWAS Member states. I was recognized by the African Union Commission for the exceptional work in Policy and Creating an Enabling Environment for Aflatoxin mitigation in Africa.</p> <p>I supported the ECOWAS Member states in the design of the first and second generation of National Agriculture Investment Plan for Food and Nutrition Security (NAIP-FNS) and the Regional Agriculture Investment Plan for Food and Nutrition Security (RAIP-FNS). A number of emerging issues such as nutrition, climate change and land governance were mainstreamed into the regional and national plans. I was also involved directly in the resource mobilization efforts in which substantial amounts were pledged.</p> <p>I was also actively involved in the development of policies and strategies in the ECOWAS Commission. These included the Harmonized Land Policy Framework, The ECOWAS Nutrition Strategy, and The Regional Reduction Poverty Strategy Paper. Actively participated in the negotiations of the ECOWAS Common External Tariff (CET) by ensuring that agricultural issues were included in the the fifth band of the tariff in order to support local food production in the Member states.</p> <p>During the implementation of ECOWAS Agriculture Policy from 2005-2015, the region registered an increase in the production of coarse grains. This was due to the strong partnership developed with Member states and other actors.</p> <p>I have organized capacity development programmes for the ECOWAS Member states which have helped to fill some of the technical skills gaps in the areas of biotechnology, soil fertility</p>

Responsibilities	
Achievements	

Skills and Competencies (In not more than five hundred (500) words, demonstrate how your experience and qualifications match the skills and competences outlined in the role profile of the position you are applying for)

Based on the above descriptions, I have the relevant skills and competencies that are required for the position. I have over the years worked at both community level and at policy level. I understand the structural and fundamental problems of African agriculture, rural development, blue economy and sustainable environment. The solutions to the problems of these sectors requires someone with practical experience and understanding of issues. In this regard, I am willing and ready to provide strategic and strong leadership with the Agenda 2063 as my guide. I have worked at national and regional levels in trying to address the structural problems of agriculture. I have also worked very closely with the African Union Commission by been a member of various continental committees such as Partnership for Aflatoxin Control in Africa (PACA), Land Policy Initiative/ African Land Policy Centre, SPS, SAFGRAD, Biotechnology, Nutrition, Food Safety.

I have over three decades of relevant competencies outlined in the role profile of the position. I have excellent skills in policy formulation, team building, strategic leadership, capacity development and resources mobilization and have worked with a verse array of development partners at the national, regional, continental and global levels. I have worked with a verse array of development partners such as UNDP, ILO, FAO, EU, World Bank, IFAD, UN Habitat, UNECA, UNIDO, AfDB, Meridien Institute, Global Environment Facility and many others.

My over thirty years of work in various organisations and positions have provided me with special skills in managing human , financial and physical resources .The success of an organization is to a large extent dependent on the quality of human resources at the disposal of the organization. I will invest in human capacity development at the continental, regional and country levels. There must be a clear line of demarcation between the roles and responsibilities of AUC, RECs and Member states. The principle of subsidiarity will be observed with the RECs and Member states.

I will endeavour to strengthen partnership between African institutions such as the AUC, RECs, UNECA, African Private Sector, Pan African Parliament, AUDA-NEPAD , USDA, USAID, CSOs/ NGOs

and that are committed to the attainment of the objectives of Agenda 2063 and in particular the sectors of agriculture, rural development, blue economy and sustainable environment. In line with the objectives of Agenda 2063, I will prioritise my interventions as follows:

1. Investment in Agriculture
2. Transformation of the Rural Economy/ Rural Development
3. Diversification into the blue economy(Fisheries and Aquaculture)
4. Promotion of sustainable environmental practices e.g. the development of smart agriculture programmes.

Achievements/Accomplishments: *(In not more than five hundred (500) words, indicate any other achievements besides those under work experience you would like to highlight)*

Besides the work related achievements, I have achieved the following awards, commendations and appointments:

1. The Winner of the 1993 Bob Griffith Class Prize for Seed Technology, University of Edinburgh.
2. Member of the National Order of the Republic of the Gambia(MRG)- 2009
3. African Union Commission, Agent of Change Award for Aflatoxin – Policy and Enabling Environment -2018
