COUNCIL OF MINISTERS  
Seventeenth Ordinary Session  
June 1971.

CM/398

REPORT OF THE WORKING GROUP ON THE EXTENSION OF THE  
ACTIVITIES OF THE AFRICAN GROUNDNUT COUNCIL  
TO OTHER AFRICAN OILSEEDS

REPORT OF THE WORKING GROUP ON THE EXTENSION OF THE  
ACTIVITIES OF THE AFRICAN GROUNDNUT COUNCIL  
TO OTHER AFRICAN OILSEEDS

1. In its Fifteenth Session the Council of Ministers adopted Resolution CM/Res.225(XV) on oilseeds, which appears as Annex 1 to this report.

The resolution recognized the need for co-operation between African oilseed producers and entrusted the Secretariats of the OAU/ECA and the African Groundnut Council to convene a meeting of African oilseed producers with a view to studying the advisability of expanding the activities of the African Groundnut Council to include other oilseeds.

2. The same resolution requested the Working Party to draw up a report to be submitted to the next sessions of the OAU Council of Ministers, the General Assembly of the African Groundnut Council and the ECA with a view of implementing the recommendations.

3. In accordance with this resolution the OAU/ECA and the African Groundnut Council arranged for a meeting of the African Oilseeds Producers to be held from 20-23 April in Addis Ababa to be followed by a meeting of the African Groundnut Council to expedite the approval of the Working Group findings. Invitations were sent to all the OAU Member countries, but only 10 countries sent delegations to the meeting and one of them was present as observer. Of the remaining 9 countries 7 are members of the African Groundnut Council and only two were non-members.

4. After meeting for three days and studying the documentation prepared by the three Secretariats the meeting was of the view that the attendance was not representative enough to allow it to take a final decision on the question of expanding the activities of the AGC to include other oilseeds. However, the Working Group adopted the recommendations which appear in paragraph 17 of the Working Group's report appearing as an Annex II to this report acknowledging the necessity for African oilseed producers to present a common front in the world market and the need to evolve a central body which would harmonize their policies.

5. The meeting further recommended that another session of the Working Group should be convened by the OAU/ECA and AGC, as soon as possible and not later than early 1972 with maximum possible participation.
6. Pursuant to resolution CM/Res.225(XV) the report of the Working Group is herewith submitted to the Council for consideration.
7. The Council may wish to endorse the recommendation of the Working Group appearing in paragraph 17 of the report in which case financial resources should be made available in the 1971/72 budget for the required meeting.
