

African Union Advisory Board on Corruption (AU-ABC) 2018 - 2022 Strategic Plan

Validation workshop document

Briefing document

December-2017

Executive summary (1/2)

- The 2018 – 2022 Strategic Plan of the African Union Advisory Board on Corruption (AUABC) is a framework that provides guidance for the initiatives of the Board Members and the Secretariat towards the achievement of the Board's short-term vision. This vision is to be, by 2020, "an efficient organization that provides relevant support to Member States in the sustainable implementation of the AU Convention and the fight against corruption in Africa."
- The design of the Strategic Framework is informed by two approaches:
 - An Analysis of the mission, strong points, weaknesses, opportunities and threats of the Board as well as the identification of the main categories of stakeholders enabled the identification of a niche for the Board. In fact, its interventions as an organ responsible for the coordination of anti-corruption initiatives in Africa will confirm the added value that it has in a field that is continually evolving.
 - An analysis of the performance of its previous strategy (2011-2015)
- The scope of the Strategic Plan cascades from the prioritized goals, expected outcome and activities to realize the goals. The strategic axes are drawn from the principles enshrined in the Constitutive Act of the African Union, the African Union Convention on Preventing and Combatting Corruption, the African Governance Architecture (AGA), the Africa Union Agenda 2063 and the Ten-Year Implementation Plan. In delivering on its mandate and in attaining its strategic goals, the Board is keenly aware of the need to harmonize synergies and develop coherent and collaborative strategies with different stakeholders
- The 2018 – 2022 Strategic Plan seeks to achieve four objectives:
 - Provide a road-map that clearly defines the actions of the Board over the next five (5) years. The plan serves as a tool to guide planning, decision making and resource allocation
 - Provide a strategic framework and common standards of responsibilities which allows the Board, stakeholders and partners to align on how goals are achieved, and the flexibility to respond to rapid and unforeseen developments
 - Create a solid link between the Board, partners and stakeholders who will assist it in its mission (short term), measure the degree of progress in fighting corruption in Africa (medium term) and to considerably reduce the effects of corruption on good governance and development in Africa (longer term);
 - Provide a platform to align the activities of the Board with the wider African Union agenda, specifically, the AU Agenda 2063 (Aspiration #3) and the framework for the African Governance Architecture

Executive summary (2/2)

- Key assumptions underlying the 2018 – 2022 Strategic Plan were outlined amongst which are the Adoption of a phased strategy approach aligned with the growth in the capabilities of the AU ABC, The Board will continue to maintain good working relationship with key and critical partners & stakeholders and Increased resources will be placed at the disposal of the AU ABC
- A Strategic Framework consisting of four strategic axes will articulate the 2018 – 2022 vision of the Board:
 - Enhanced legal framework to combat corruption;
 - Strengthened capacity of State Parties to combat corruption;
 - Enhanced outreach and cooperation activities; and
 - Strengthened institutional capacity of the Board and the Secretariat.
- During the first two years, the Board and the Secretariat will work to strengthen their own operational efficiency, to ensure the sustainability of their actions. Other key areas of interest will focus on the ratification of the Convention by Member States, the implementation of a communication strategy, development and implementation of anti-corruption projects with stakeholders.
- To ensure effectiveness and efficiency in the implementation of this plan, the Board will play the role of a think tank and provide Member States and the Secretariat with the necessary guidance on anti-corruption issues. It will also be responsible for conducting campaigns and strategic communication, while the Executive Secretariat will provide the technical and administrative support required for the implementation of different activities.
- The Board intends to carry out this plan based on key principles such as, among others:
 - Subsidiarity and complementarity with other AU Organs, Member States and RECs;
 - Concrete achievements, feasibility and attainment of results;
 - Method for networking, which benefits from initiatives and resources provided by other actors
- The Strategic Plan is designed to foster sustained engagement with relevant governance stakeholders so as to derive maximum benefits. It is also developed at a time where there has been heightened interest in the work of the Advisory Board following the decision of the African Union to declare 2018 as the Africa Year of anti-corruption. While the development of this Strategic Plan has focused on the current mandate of the Advisory Board, it is guided by the principles of foresight and flexibility to make it adaptable to meet the challenges of the next five years.

Introduction to the AU ABC

Review of the 2011-2015 Strategic Plan

2018 – 2022 Strategy & Implementation Plan

2018 – 2022 Implementation Plan Enablers

Annexures

To enable the implementation of the strategy, we propose a temporary structure to boost the capacity of the Secretariat

We propose a delivery type structure to improve strategy implementation from ~5% to ~50% over the next 5 years...

Poor implementation of the 2011-2015 strategic plan

- Poor implementation of the 2011 to 2015 strategy resulting from:
 - Capacity challenges
 - Technical skills challenges
 - Unclear implementation roles between the Secretariat and Board
 - Too ambitious goals
- There is no reason to believe that implementation of the new strategy would be any different

Proposed implementation structure and design criteria

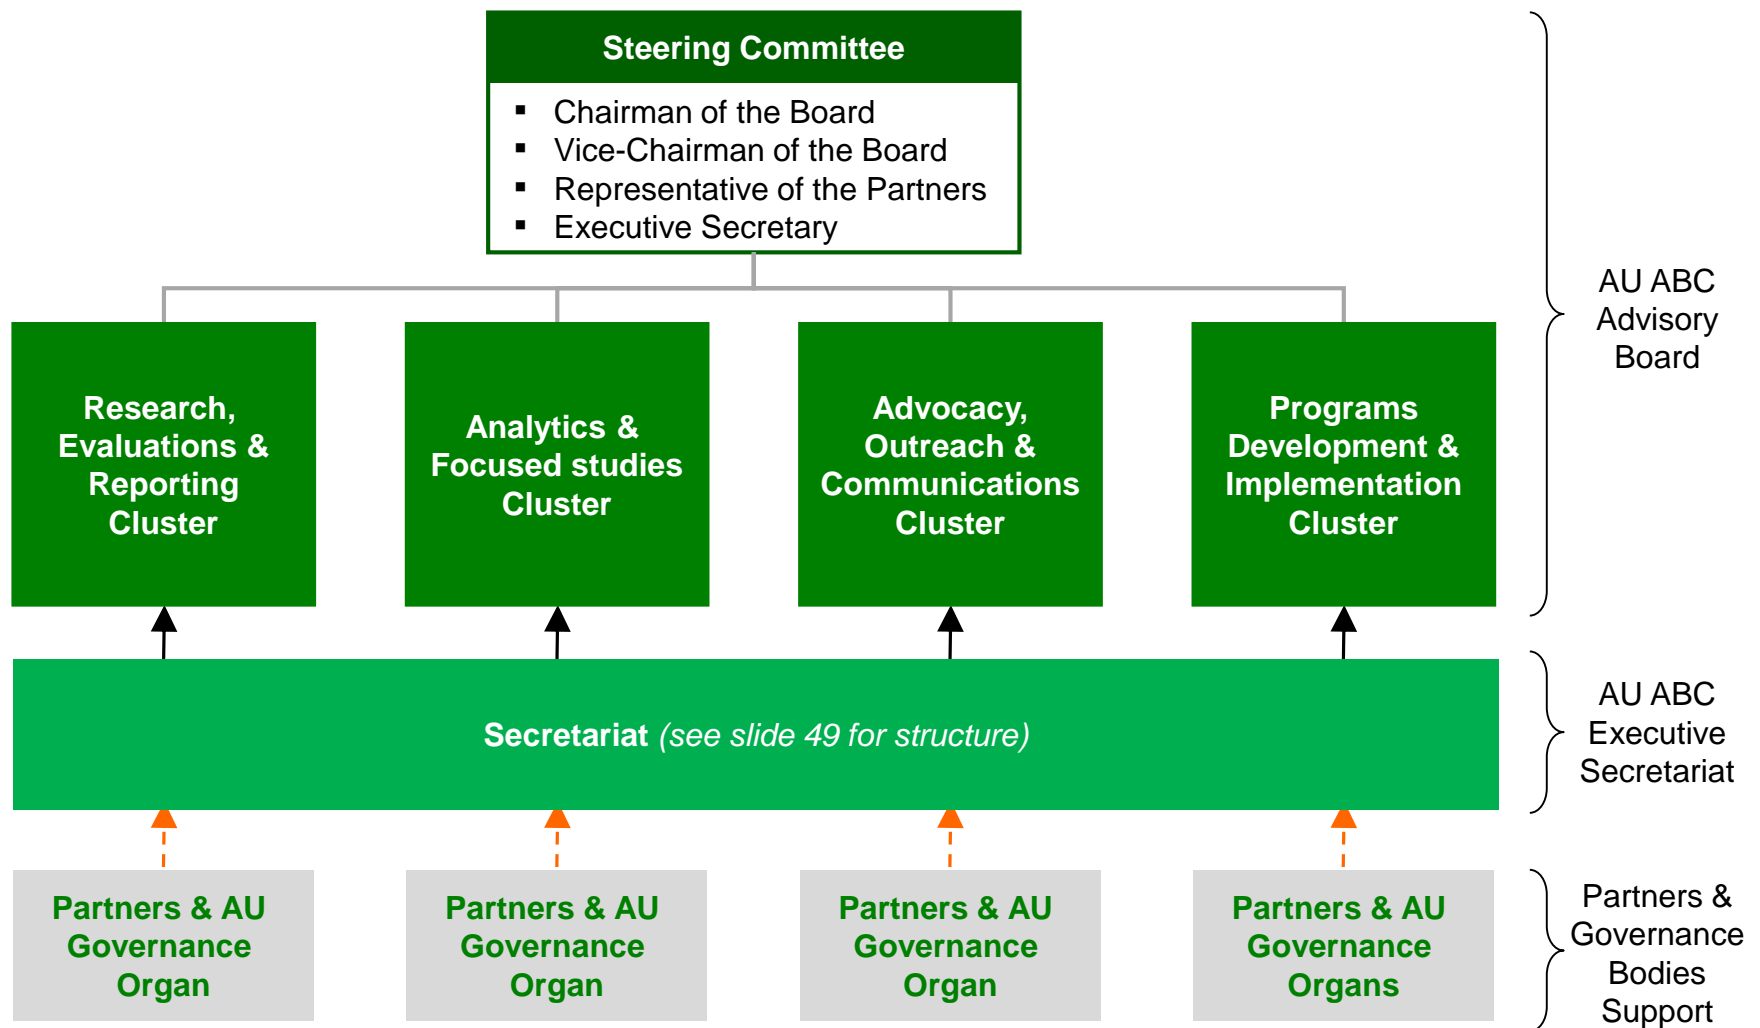

Design considerations

- Improved and strengthened relationship between the Board and the Secretariat
- Greater involvement of the Board in strategy execution
- Improved collaboration with partners and stakeholders:
 - Resourcing – execution of strategy
 - Capacity Building

Envisaged impact of the new structure

- Improving implementation would require a near term focus on the implementation structure as opposed to other enablers such as performance management structures
- The proposed implementation structure will leverage resources from stakeholders and lead to close collaboration (and defined roles and responsibilities) within the AU ABC
- These would lead to a marked improvement in implementation

... the delivery structure/mechanism would have the following interaction model with key stakeholders ...

... and the following governance structure , outlined for all key stakeholders

Role	
A Steering Committee	<ul style="list-style-type: none">▪ Provide direction▪ Make decisions or recommendations; approve targets and plans during Board sessions or special sittings to consider implementation of strategic plan▪ Integrate across clusters

D Partners	<ul style="list-style-type: none">▪ Provide implementation support – resources and funding▪ Provide overall perspective and guidance▪ Provide international best practice
